Hi, I'm Tran Anh, a fresh graduate at Vassa University of Applied Sciences and a self-taught front-end developer from Finland. My passion for software lies with dreaming up ideas and making them come true with elegant interfaces. I take great care in the experience, architecture, and code quality of the projects I build. It would be a pleasure if I could have a place in your company.

RECENT PROJECT

Camping Site

MONGODB, EXPRESS, REACT, NODEJS

DEMO : <https://campingsite.netlify.app/>

GITHUB: https://github.com/TranAnh022/frontend_campingsite

This is a camping website prototype that provides a platform for camper and outdoor enthusiasts where users can connect and share their passion for outdoor adventures

GALAXY TRAVEL

REACT , CSS

DEMO : [HTTPS://HELPFUL-FRANGIPANE-152D76.NETLIFY.APP/](https://helpful-frangipane-152d76.netlify.app/)

This is a travel space website using React JS with some animations

Devices Shop clone

REACT, NEXT.JS , SANITY , STRIPE

DEMO : <https://devices-shop.vercel.app/>

e-commerce application include modern design and animations, the ability to add and edit products on the go using a Sanity, all advanced cart, and checkout functionalities, and most importantly, the complete integration with Stripe so that you can cover real payments.
