Hi, I'm Tran Anh, a 4th-year student at Vassa University of Applied Sciences and a self-taught front-end developer from Finland. My passion for software lies with dreaming up ideas and making them come true with elegant interfaces. I take great care in the experience, architecture, and code quality of the projects I build. It would be a pleasure if I could have a place in your company.

RECENT PROJECT

ECOMMERCE SHOP

REACT.JS,

DEMO : HTTPS://GRACEFUL-SORBET-9A77C7.NETLIFY.APP/

An e-commerce web app for shopping
